

TEDDY THE BRAVE TURTLE

Teddy the turtle was a little turtle about to hatch and enter the world for the first time ever. He twisted and turned trying to get out. Eventually he got out of his tiny egg. Teddy was scared at first trying to go back in his egg but then his mother came and said you are alive now you cant get back in there it is impossible it is broken you will have a very happy life when your brothers and sisters hatch but for now come and I will teach you how to swim.

Teddy did not get it at first but he tried and eventually was able to glide across the water with his eyes closed. In fact he was so good at it that he wanted to do a summer salt jumping out of the water like a dolphin. It has been a while but all his brothers and sisters hatched all very eager to explore. Teddy taught every single one of them to swim,talk,jump and dive.

One day teddy stumbled on something big something fierce a shark he grinned at teddy and then said your ment to swim do you want to get eaten and be in my tummy. At this very moment Teddy thought maybe I should try and be his friend. So teddy said in stead of you eating me. The shark said “okay we we see how we get on as friends and hopefully we stay friends otherwise you going in my tum tum.

Once he got home to his coral cave where his mother was siting with all of his siblings who were getting ready for dinner. When he went in and his mother said oh teddy your just in time for some raw fish it is your salmon. Teddy could not wait to tell his mother that he was able to persuade a shark to be his friend. When they had all settled down and started to eat and then he said mum guess what and his mother replied oh I cant guess tell me and told them every single detail about it his mother said oh I am so happy that you found a friend you are growing up way way way to fast it feels like you hatched yes ter day and so that was that the naxt day he whent out and he could not find him and then he jump out and Teddy went home and the shark was never to be seen again.

When he got home and had dinner he said I could not find my shark friend he just disapeard and so I play with the fish I chased them swim with them and then I came home and were up to date. And then he was tucked up in bed and drifted of to sleep.

A couple of days later he has found lots of friends and is very very very happy with his wonderful life happily ever after bye.
